

# 4th Structural Heart Disease Asia Pacific Symposium

8 – 9 September 2023

CLAUDELANDS EVENT CENTRE  
HAMILTON, NEW ZEALAND

## Bringing Together Structural Heart Disease Interests

The Structural Heart Disease Asia Pacific (SHD-AP) Symposium is all about bringing the heart team closer on a unified platform.

The Symposium is aimed at sharing knowledge in the evolving field of structural heart disease and we invite attendance from all specialties involved in the multidisciplinary team to attend.

- The only meeting that brings together specialists from across the modern heart team, in one place, at one time.
- Comprehensive workshop on wet dissection correlated to advanced cardiac imaging.
- Live case transmissions and case in a box presentations of contemporary structural heart disease procedures.
- Hands-on, practical workshops including: PASCAL Mitral TEER “Beating Heart”.
