Wollongong Heart Symposium

State of the art management of coronary artery disease

Wollongong Private Hospital and The Cardiac Centre NSW present an interactive two-day educational program discussing the latest in coronary intervention and cardiac surgery, as well as cardiac research from the University of Wollongong.

Featuring a line-up of influential Australian and international speakers, including University of Oxford Cardiothoracic Surgeon, Professor David Taggart.

The Wollongong Heart Symposium is suitable for a range of cardiovascular professionals including cardiologists, physicians, anaesthetists, basic physician trainees, advanced trainees and coronary nurses.

View the program and register your interest now.

Saturday 11 November - Sunday 12 November, 2023
