# 5th Structural Heart Disease Asia Pacific Symposium

12 - 14 SEPTEMBER 2024

Claudlands Event Centre, Hamilton, New Zealand

## Bringing Together Structural Heart Disease Interests

The focus of the Structural Heart Disease Asia Pacific (SHD-AP) Symposium is to foster collaboration among heart teams on a cohesive platform.

The 2024 Symposium is designed to facilitate the exchange of knowledge within the dynamic realm of structural heart disease. We extend a warm invitation to professionals from various specialties comprising the multidisciplinary team to participate in this event.

### Who should attend:

Specialists in structural heart disease intervention and cardiac imaging, including anaesthetists, radiologists, intensivists, nurse and allied health, cardiac surgeons, advanced trainees, technicians, health policy advisors, insurance company personnel and hospital
